

JOHN FIELD CATALOGUE

WELCOME TO JOHN FIELD

It is a great honor to welcome you to the relaunch of John Field. Since 1965, John Field has created technical weather resistant clothing for hunting, horse riding and outdoor activities.

In 2011, with the implementation of a young dynamic team who shares a passion for shooting, John Field has established a new strategy aiming at developing a performing technical and elegant range of garments and accessories for shooting and outdoor purposes.

The combination of the Seyntex over a 100-year old experience in the field of technical textiles and the team's passion for hunting, nature and tradition merge to develop a smart functional highly technical weather resistant and comfortable collection while keeping quality as its primary focus.

I hope that you feel as good in the garments as we do !

Enjoy your season,

Maureen

WAISTCOAT JACK

The elegant waistcoat constructed with dry wax cotton is ideally worn over a shirt in warmer temperatures or over a jumper or a fleece in fresher temperatures. The magnetic closable pockets allow easy cartridge access and facilitate flap manipulation. Comfort pockets are located under the front pockets.

The high-visibility flaps render the garment elegant and comfortable when closed. When opened, the fluorescent orange parts enhance security while remaining comfortable. They are attachable with double press studs on the sides of the waistcoat and with imitation leather buttons on the back.

The game pocket of the waistcoat offers game storage possibilities when necessary. Additionally, the game pocket can be fully unzipped to serve as a sitting flap; an extra piece of fabric has been inserted to cover half of the leg length when sitting. The inner game pocket lining constructed with coated polyamide fabric is impermeable and therefore facilitates maintenance of the pocket.

SHOTGUN SLIP JOE

PRODUCT PERFORMANCE

SHOTGUN SLIP JOE

- ☐ WATERPROOF
- ☐ ABRASION RESISTANT
- ☐ TEAR RESISTANT
- ☐ 3-DIAL COMBINATION LOCK
(COMPLIANT WITH THE BELGIAN LAW ART 21.1
SEPTEMBER 2008)
- ☐ ADJUSTABLE WEBBING SYSTEM
- ☐ FUNCTIONAL POCKET
- ☐ WINDOW TO SHOW LOCK
FIXATION
- ☐ TRANSPARENT NAME TAG
- ☐ LIGHT WEIGHT FOAM LINING
FOR GUN PROTECTION

AVAILABLE SIZES :

ONE SIZE

AVAILABLE COLORS :

 COYOTE

 FOREST GREEN

The waterproof, highly abrasion and tear resistant gun slip is constructed with high tenacity Cordura®. The 3-dial combination lock provides safety while remaining easily accessible.

A transparent window has been included to show that the lock is fixed on the trigger as well as to recognize the owner's gun.

Although the size of the gun slip is a 120cm standard size, it may be adjusted to larger or smaller guns thanks to its clever and strong adjustable webbing system. A pocket for permit storage is provided as well as a name tag protected by a window.

The PVC piping protects the fine Chamude® leather, both materials rendering the product elegant and exclusive.

The gun slip is lined with light weight foam to protect your gun. The gun slip is ideal for gun transportation either during shoots or while traveling. Thanks to its structure it may easily be put away in your luggage.

GAITERS JOHN

Breathable, waterproof, durable gaiters constructed using the high tenacity laminated Cordura® fabric for ultimate abrasion and tear resistance. The elastics situated at the bottom shape the gaiter around your shoe and leg to improve comfort. The gaiters are adjustable with a double cord lock enhancing practicality and functionality. Additionally, the gaiter is adjustable to the thickness of your sole and remains solid thanks to the implementation of the plastic coated metal wire making it resistant any type of environment. A metal hook is provided at the front of the gaiters to fix the gaiter to your shoe laces.

The strong John Field colored zipper offers an elegant touch and adds up to making the product unique.

The John Field gaiters may be worn in any kind of environment varying from muddy woods to rocky mountains to wet fields. They are suitable in temperatures altering from below 0°C to over 30°C.

CORDURA™
FABRIC

ART. W110016-2300-1-6003

FABRIC PERFORMANCE

CHAMUDE®

Chamude® man-made leather offers the elegance of real leather while remaining easy to maintain. The soft, fine, silky and smooth features of the fabric provide a unique exclusive look although the fabric presents unchanged properties through rainy weather conditions.

Fashmo™

CORDURA

Cordura fabric is a high-tenacity, durable fabric and offers the best results regarding tear and abrasion resistance. Additionally, the material demonstrates extremely lightweight properties.

THERMO°COOL™

Advansa Thermo°Cool™ is designed to optimize the body's natural thermoregulation capabilities through smart fibre-cross sections providing evaporative cooling or thermo regulation according to the wearer's needs.

SIZE CHART

HOW TO MEASURE ?

- (1) **NECK GIRTH** : Measure at the base of your neck, keeping the tape relaxed
- (2) **CHEST** :
 - Men : Measure around your chest over your shoulder blades at the height of your armpits, keeping the tape parallel with the floor
 - Women : Measure around your chest at its fullest part over your shoulder blades, keeping the tape parallel with the floor.
- (3) **WAIST** : Measure around your natural waistline and over any under garments that are usually worn.
- (4) **HIPS** : Stand with your two feet together to measure your hips. Measure your hips at the most prominent part.
